

MAKING SPACES MATTER

CREATING A SENSE OF PLACE

DECORATIVE WALL PANELS AND ACOUSTIC WALLS AND CEILINGS

Atmosphere is vital in hospitality, retail and commercial environments. We believe that great walls and ceilings in a well-designed space will encourage footfall and customer engagement. This improves the bottom line, contributing to a successful result for the client.

“Every time we phone we feel that whoever we are talking to is someone who knows what they are talking about... and your service is excellent”

TOP LONDON INTERIOR HOSPITALITY DESIGNER

AN EYE FOR DETAIL

From our beginnings in 2006, we have recognised the need for your interiors to provide return on investment. Ever since we have excelled in transforming spaces to create a sense of identity.

We've been involved in many projects that have proved that an attractive and welcoming interior will encourage footfall, customer engagement and subsequently your bottom line.

At Vtec we pay attention to the details. This is reflected in the performance of our designs and the care that goes into every stage of production. These high standards are mirrored by our enthusiastic and knowledgeable client support team.

INNOVATION

drives our development of new methods, products and applications

TRANSFORMING SPACES

1 UTILITY COMPANY OFFICES

A beautiful custom Supaslat design

2 HEALTH FOOD DELI

A great combination of rough concrete and London brick white texture panels

3 UNIVERSITY LIBRARY

A flowing feature using Supacoustic in Supaveneer hoop pine

4 HOTEL RESTAURANT

London brick multi texture panels create a great ambience

7 CASUAL DINING RESTAURANT

Groove 2 finished in copper bronze creates a reflective feature wall

8 WINE BAR

Ocean 3D panels in a specific colour reference gave this interior impact

5 OIL COMPANY OFFICE COMPLEX

Our bespoke 3D panels were used in the reception, corridors and restaurant areas

SEE THE CHANGE

3D WALL PANELS

Our 3D panels are perfect for enhancing the ambience with our fantastic range of designs and bespoke capabilities, providing great mood-enhancing possibilities and true design flexibility to meet your design brief.

And as time is so important these days, we then produce the panels fully factory-finished in sizes to suit your specific project. This aids swift installation and ensures that the design flows beautifully from panel to panel.

FEEL THE ATMOSPHERE

TEXTURE WALL PANELS

Our large panel sizes mean the panels are rapid-to-install - perfect when you want your wall up and the tills ringing again in record time for a quicker ROI for the client.

Versatile brick, concrete, stone and timber panels add fantastic visual impact to any project and are produced from original walls with exact natural textures and features – all in a lightweight and durable panel system.

INSTALLATION

is simple and we provide all the support you need for your on-site team

HEAR THE DIFFERENCE

ACOUSTIC PANELS

Whether it's slatted timber ceilings and walls, perforated timber acoustic panels or large format beams, our mood enhancing and visually brilliant acoustic solutions change the way we feel and experience a space to give it its own personality.

VTEC have formed an allegiance with market leading SUPAWOOD, the Australian manufacturer of Supacoustic, Supaslat and Supaslat Maxi. We now operate **SUPAWOOD UK** alongside VTEC and manufacture the products here in the UK whilst benefiting from global expertise and support.
