<b>Installation - Vertical Screens</b>	<ul style="list-style-type: none"> <li>- <b>MaxiBeam Soft</b> vertical screens can be fastened directly to almost any common ceiling or floor.</li> </ul>																																																

# MAXIBEAM SOFT

## PRODUCT DATA SHEET

### PRODUCT INFORMATION

<b>Beam End Options</b>	<ul style="list-style-type: none"><li>- Square end - no joiner.</li><li>- Square end - with joiner.</li><li>- 90° vertical to horizontal with joiner.</li></ul>
<b>Fire Performance</b>	<ul style="list-style-type: none"><li>- Available in either Standard Grade (non-FR) or FR Grade (Euroclass B).</li></ul>
<b>Acoustics</b>	<ul style="list-style-type: none"><li>- <b>MaxiBeam Soft</b> is frequently installed under a perforated Supacoustic ceiling or Acoustic Backing Board (9-12mm thick black absorber) to achieve acoustic absorption.</li><li>- Acoustic Absorption varies according to absorbing material, centres, beam height and void depth. Please speak to our Technical team for details and acoustic test data.</li></ul>
<b>Natural Materials</b>	<ul style="list-style-type: none"><li>- Although <b>MaxiBeam Soft</b> is renowned for its stability with our production methods and processes, there are some components that are made of natural products. Therefore, we cannot accept responsibility for pieces that may show warping, twisting, splitting, variations of texture and colour.</li><li>- Please note that the materials will absorb or lose moisture depending on the surrounding environment, which means timber can expand, contract, warp and move etc over time in relation to the moisture changes.</li></ul>
<b>Access and Service Integration</b>	<ul style="list-style-type: none"><li>- The <b>MaxiBeam Soft</b> system integrates well with access and service requirements, such as:<ul style="list-style-type: none"><li>- Access hatches at specific locations</li><li>- Hidden doorways</li><li>- Lighting</li><li>- HVAC grilles</li><li>- Smoke detectors and sprinklers</li><li>- AV screens and cabling</li></ul></li><li>- It can also be fully removable for access to the void.</li></ul>
<b>Workability</b>	<ul style="list-style-type: none"><li>- <b>MaxiBeam Soft</b> is all made to measure to avoid the need for any onsite cutting or adapting</li></ul>
<b>Maintenance</b>	<ul style="list-style-type: none"><li>- No maintenance needed apart from occasional dusting. Any dirt deposits can be wiped off. Beams should not be subjected to moisture or wet cloths.</li></ul>
