

# SUPALAMI FINISHES

HIGH-QUALITY, HARD-WEARING, REALISTIC AND ECONOMIC LAMINATE FINISHES

EASY TO IMAGINE EASY TO SPECIFY EASY TO INSTALL

# We are Manufacturers and Technical Specialists.

Vtec's team of experts help to bring architectural designs to life. Walls and ceilings are surprisingly complex, so rely on us to look after all the details - saving you time, money, and worry.

- We work with you to **bring your ideas to life** and **solve design challenges**.
- As **UK manufacturers** of adaptable systems in our Cornwall factory, we provide expert knowledge, quick response times and reliable delivery.
- Our Technical Team's **capabilities** include **3D modelling** for complex ceilings and walls, ensuring precise interfaces with other elements.
- We **coordinate integration of services and access** requirements where required.
- **Detailed drawing packages** include setting-out drawings, installation sequence and critical detailing.
- Our dedicated **Project Leaders** liaise with designers, installers and our Production Team to keep the dots connected.
- We're here to **guide you through the entire process** - from initial concept and design to support and advice for the installation.

## WHAT IS SUPALAMI?

Our Supalami line of laminate finishes have been specially chosen for their stunning realism, and ability to transform architectural systems into aesthetic forms.

They are high-quality, hard-wearing and requires minimal maintenance. Supalami is FR Euroclass B rated (subject to substrate and adhesives etc.), giving you assurance and confidence in your specification projects.

Supalami is a high-performance laminate that delivers on design and function.

**Supalami is available for:**

**MAXIBEAM - LIGHTWEIGHT BEAM SYSTEM**

**SUPASLAT - SLATTED STYLE SYSTEM**

**MICROSLAT - MODULAR WOOD STYLE SYSTEM**

## OUR SUPALAMI FINISHES
