# CLEANING AND MAINTENANCE GUIDE

TEXTURE WALL PANEL SYSTEM

- Texture Panels are virtually maintenance free.
- Dry dirt, dust and loose particles can be removed occasionally. Use a duster with brush, or vacuum using a soft brush attachment.
- General dirt or marks can be washed off using plain water.
- Panels can be hosed down if the location is suitable, otherwise a soft brush or cloth may be used with water, rinsing clean as you proceed.

- **DO NOT** use solvents or any cleaner with an abrasive content.
- **DO NOT** use pressure water.
